

CONTENTS

Li J., Li J. and Xia Z. Delay-dependent generalized H_2 control for discrete T-S fuzzy large-scale stochastic systems with mixed delays	585
Mnasri C. and Gasmı M. LMI-based adaptive fuzzy integral sliding mode control of mismatched uncertain systems	605
Tong S., Yang G. and Zhang W. Observer-based fault-tolerant control against sensor failures for fuzzy systems with time delays	617
Khémiri K., Ben Hmida F., Ragot J. and Gossa M. Novel optimal recursive filter for state and fault estimation of linear stochastic systems with unknown disturbances	629
Georges J.-P., Theilliol D., Cocquempot V., Ponsart J.-C. and Aubrun C. Fault tolerance in networked control systems under intermittent observations	639
Zhang Q., Yang L. and Liao D. Existence and exponential stability of a periodic solution for fuzzy cellular neural networks with time-varying delays	649
Szynkiewicz W. and Błaszczuk J. Optimization-based approach to path planning for closed chain robot systems	659
Kowalczuk Z. and Czubenko M. Intelligent decision-making system for autonomous robots	671
Mahmoud T.A. Adaptive control scheme based on the least squares support vector machine network	685
Kaczorek T. Positive stable realizations of fractional continuous-time linear systems	697
Barszcz T. and Czop P. Estimation of feedwater heater parameters based on a grey-box approach	703
Krawiec K., Jaśkowski W. and Szubert M. Evolving small-board Go players using coevolutionary temporal difference learning with archives	717
Arangú M. and Salido M.A. A fine-grained arc-consistency algorithm for non-normalized constraint satisfaction problems	733
Aswani Kumar Ch. Knowledge discovery in data using formal concept analysis and random projections	745
Gdawiec K. and Domańska D. Partitioned iterated function systems with division and a fractal dependence graph in recognition of 2D shapes	757
Prasath V.B.S. A well-posed multiscale regularization scheme for digital image denoising	769
