## Guide

### Requirements in brief

Our basic rules include electronic paper submission and processing, the LaTeX format following a special *AMCS* style, a license to publish, and a voluntary page charge.

### Paper submission

Paper proposals may be submitted only through our on-line submission system. If suitable for our journal, the papers will be subject to a full review procedure, and a decision on whether or not to accept the paper will be made based on the reviewers' comments.

### Paper style

The style of papers to be published in *AMCS* is determined by a special LaTeX class, which is described in detail in our instructions for authors. No other formats are accepted.

### License to publish

Currently, all authors must sign the license to publish upon paper acceptance. The license governs in detail the commercial and non-commercial use of papers published by our journal, and determines user and author rights.

### Page charge

Papers published in *AMCS* are subject to a voluntary page charge, which will be invoiced through the authors to their institutions. Publication is not dependent on the payment of this charge. However, for papers exceeding the required length, mandatory excess page charges will be applied.

### Provisions

One sample copy of the journal and the electronic version of the paper are provided for authors once the issue has been published.

### Details, submission and downloads

The complete guide for authors can be found on our website at [www.amcs.uz.zgora.pl](http://www.amcs.uz.zgora.pl).
