

# CONTENTS

## *Special section*

<b>Qureshi M.B., Alrashed S., Min-Allah N., Kołodziej J., Arabas P.</b> Maintaining the feasibility of hard real-time systems with a reduced number of priority levels .....	709
<b>Bossard A. and Kaneko K.</b> Torus-connected cycles: A simple and scalable topology for interconnection networks .....	723
<b>Gašior J. and Seredyński F.</b> Decentralized job scheduling in the cloud based on a spatially generalized <i>Prisoner's Dilemma</i> game .....	737
<b>Mariano P. and Correia L.</b> The <i>Give and Take</i> game: Analysis of a resource sharing game .....	753
<b>Feuerriegel S. and Bücker H.M.</b> The non-symmetric $s$ -step Lanczos algorithm: Derivation of efficient recurrences and synchronization-reducing variants of BiCG and QMR .....	769
<b>Zeifman A., Korotysheva A., Satin Y., Korolev V., Shorgin S. and Razumchik R.</b> Ergodicity and perturbation bounds for inhomogeneous birth and death processes with additional transitions from and to the origin .....	787

## *Regular section*

<b>Luo N., Tan Y. and Dong R.</b> Observability and controllability analysis for sandwich systems with backlash ..	803
<b>Ramírez M., Villafuerte R., González T. and Bernal M.</b> Exponential estimates of a class of time-delay nonlinear systems with convex representations .....	815
<b>Kaczorek T.</b> Positivity and linearization of a class of nonlinear continuous-time systems by state feedbacks ..	827
<b>Ławryńczuk M.</b> Nonlinear state-space predictive control with on-line linearisation and state estimation .....	833
<b>Seybold L., Witczak M., Majdzik P. and Stetter R.</b> Towards robust predictive fault-tolerant control for a battery assembly system .....	849
<b>Cherif I. and Fnaiech F.</b> Nonlinear system identification with a real-coded genetic algorithm (RCGA) .....	863
<b>Bańka S., Brasel M., Dworak P. and Jaroszewski K.</b> A comparative and experimental study on gradient and genetic optimization algorithms for parameter identification of linear MIMO models of a drilling vessel ..	877
<b>Karbauskaitė R. and Dzemyda G.</b> Optimization of the maximum likelihood estimator for determining the intrinsic dimensionality of high-dimensional data .....	895
<b>Savchenko A.V. and Belova N.S.</b> Statistical testing of segment homogeneity in classification of piecewise-regular objects .....	915
<b>Rakowski W.</b> Application of cubic box spline wavelets in the analysis of signal singularities .....	927
<b>Florea C., Vertan C. and Florea L.</b> High dynamic range imaging by perceptual logarithmic exposure merging	943
<b>Szymczyk P., Tomecka-Suchoń S. and Szymczyk M.</b> Neural networks as a tool for georadar data processing	955
<b>Kamiński M.</b> Symbolic computing in probabilistic and stochastic analysis .....	961
